National Agricultural Statistics Service

TITLE: List Sampling Frame Survey

OMB CONTROL NUMBER: 0535-0140

SUMMARY OF COLLECTION: General authority for these data collection activities is granted under U.S. Code Title 7, Section 2204 which specifies that “The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain . . . by the collection of statistics . . .” The primary objective of the National Agricultural Statistics Service (NASS) is to provide data users with timely and reliable agricultural production and economic statistics, as well as environmental and specialty agricultural related statistics. To accomplish this objective, NASS relies heavily on the use of sample surveys statistically drawn from "List Sampling Frame." The List Sampling Frame is a database of names and addresses, with control data, that contains the components values from which these samples can be drawn.

NEED AND USE OF THE INFORMATION: Data from criteria surveys are used to provide control data for new records on the list sampling frame. This information is utilized to define the size of operation, define sample populations and establish eligibility for the Census of Agriculture. New names and addresses of potential farms are obtained on a regular basis from growers association, other government agencies and various outside sources. This information is used to develop efficient sample designs, which allows NASS the ability to draw reduced sample sizes from the originally large universe populations.
